LAB 2

ADMINISTRATIVE STUFF

1) If you haven't done so yet, please change your **github username** to the format *<Group>--<Name>-<Surname>*.

2) When working on your assignments:
   a)   **commit** once in a while
   b)   Use **informative** messages on your commits

3) !Remember: to be graded for an assignment:
   a)   All relevant code must be uploaded on github by the time we start the lab
   b)   You have to present the assignment during lab hours

LAB 2

Link to assignment 2: https://classroom.github.com/a/bbID_plx. (the 2 properties will be assigned to you during the lab)

What we're looking for:

- Functions
- Communication between functions with **input parameters** and **return** statements (no global variables)
- Separate input/output functions from those performing calculations
- Console-based menu: don't forget to provide context for the user!
